

**THE CHILDREN'S HOUSE | ACCREDITED
MONTESSORI KINDERGARTEN**

PRINCIPAL'S MESSAGE

Dear Parents,

As we are in our second month of online learning at The Children's House Montessori Kindergarten, it is time to reflect on the current crisis we are all facing during this pandemic of Covid-19 around the globe and how we are responding to the demands it puts on us and our families. We do understand the frustration during this difficult time with regards to the school's closure however, we believe that we all are doing our best in adjusting to virtual learning in order to continue the education of the children.

We believe there are many compelling benefits to our virtual learning platform such as the children are able to learn at their own pace with the teaching videos provided and practice doing the worksheets/ activities. Parents are also more involved in their children's education by providing support, guidance and encouragement to the children while helping them do the activities at home. There are more learning options available for the children at home as well as the teaching videos and worksheets can be done at the parents and children's leisured schedule. In addition, online learning allows the children to learn in a comfortable environment which they are familiar too.

Although virtual learning can never replace in-person, teacher/student interaction, it serves instead as a gateway to continue learning, provide pastoral support and retain a sense of our school community. We would like to thank the parents for supporting your child/ children with our virtual learning program. Without you, we will not be able to deliver the virtual learning program to your son/ daughter. We would also like to thank you for sending us some wonderful pictures and videos of your child/ children doing the online learning activities and worksheets. We are so proud and happy to see the children getting into the routine of virtual learning and progressing with their education through our online program. We are also delighted to see videos and pictures of the children watching the teaching videos and practicing doing the worksheets/ activities as well as having fun doing the science experiments/ fun activities and enjoying the circle time videos, songs and story times.

We look forward to seeing more pictures and videos of the students enjoying the virtual learning program and we hope that everyone continues to stay safe and healthy during this crisis.

Best wishes,

Kim Ferreira
Principal
